Nullam euismod lectus ac est finibus, id mattis lacus lacinia. Curabitur felis felis, cursus a tempor consectetur, pharetra sit amet nisl. Aliquam quis arcu mi. Proin dui dolor, venenatis id vulputate quis, viverra vitae nibh. Donec odio erat, varius sit a

```
1  if (a > 3) {  
2      moveShip(5 * gravity, DOWN);  
3  }
```

Here is a footnote reference,¹ and another.²

This paragraph won't be part of the note, because it isn't indented.

¹Here is the footnote.

²Here's one with multiple blocks.

Subsequent paragraphs are indented to show that they belong to the previous footnote.

```
{ some.code }
```

The whole paragraph can be indented, or just the first line. In this way, multi-paragraph footnotes work like multi-paragraph list items.

2 Numerical Results and Discussion

2.1 Numerical Results and Discussion

3 Numerical Results and Discussion

3.1 Numerical Results and Discussion

4 Numerical Results and Discussion

4.1 Numerical Results and Discussion

5 Numerical Results and Discussion

5.1 Numerical Results and Discussion

6 Numerical Results and Discussion

6.1 Numerical Results and Discussion

7 Numerical Results and Discussion

7.1 Numerical Results and Discussion

8 Numerical Results and Discussion

8.1 Numerical Results and Discussion

9 Numerical Results and Discussion

9.1 Numerical Results and Discussion
